## Service Overview and Benefits

Our Pay 360 Education Payments Support is provided by a group of highly experienced customer focused SIMS professionals based within our Systems Team, all of whom have substantial knowledge of supporting Schools with their management information systems. This means that we can fully appreciate the pressures school users face, and the essential requirement for you to receive a prompt and efficient response to your Pay 360 Education Payments related issues and enquiries.

As part of Coventry City Council local authority and through a longstanding working relationship with Capita staff, means we are well placed to understand the demands upon schools, not only from a software perspective but also from wider education policy affecting schools and academies.

Through our partnership with Capita, we regularly attend regional and national meetings and update seminars, we keep abreast of their software developments, updates, and plans.

This service provides full support of Pay360 Education Payments product suite, including advice, guidance, and technical support and its integrations into other third-party applications.

This service is complimented by our Training and Events service which provides full training and support for this product.

## Service Description

The following is a description of the services provided as part of this service element.

We provide this service via: -

- Telephone and remote support
- On site visits where necessary
- Documentation on our website
- Face to Face Training, Webinars, Online Courses, and Events

## Liaison with Third Party Software Provider

Where we identify that a problem exists within the Pay360 Education Payments system that requires further investigation to resolve, we will liaise with the software vendor on your behalf.

## Integrations into other products

This service supports the integration with SIMS .net/SIMS 7, SIMS FMS and SIMS Services Manager (SSM)

We will work with yourselves and ESS to support the data transfer between the systems.

We will only support the third-party integration where the third-party support provider provides a tool to enable the data transfer between the two systems. Our support does not extend to supporting the third-party system unless otherwise stated.
